Dear Jim,

As discussed, Collectables is a re-issue label of all types of music. Lately we've been having a lot of success with rock and psychadelic garage bands from the 60's. The labels you mentioned like "Cuca" I'm sure contain many titles which we would be very interested in. Perhaps we could come up with as much as a dozen CD's worth! Please forward me a list of masters which you control. Also, I'm very interested in doing an album on "The Fendermen." Any assistance on who really has their masters would be appreciated.

Sincerely,

Mike Stefanik
