Voyta Wrabetz Makes Brief -Visit Here-Assures Leaders Local Situation Is Not Abandoned

Prospects that the Wisconsin industrial relations board will return to Oshkosh soon in an effort to bring about another conference between local woodworking plants and striking millmen appeared bright today following an unannounced visit here late yesterday afternoon of Voyta Wrabetz. chairman of the board.

The visit was brief and was merely a stopover while Mr. Wrabetz was enroute to a northern Wisconsin city where a labor dispute is in progress.

He took the time, however, to confer with local leaders, including B. A. Philipp, president of the Millmen's local No. 1363, and briefly went over the developments on the local situation since the mediation board left Oshkosh last Friday.

Mr. Philipp said he could not disclose details of the conference. but declared Mr. Wrabetz assured him that the mediation board has not abandoned the local situation. and will return here at an early date to see what can be done. EXPLAIN SENTIMENT

Union leaders explained to Mr. Wrabetz the sentiment of the 1,300 Oshkosh woodworkers, who Saturday afternoon rejected almost unanimously the proposal for an

While that meeting was closed and union leaders have declined tion. to reveal anything that went on except the general result, it was chairman was told that the princi-

cents an hour. It has been reported unofficially that some of the workers contend the 40 cent minimum would not represent any substantial wage increase since they were averaging prior to the strike about 4 cents an hour on bonus.

dependent of production!

ELIMINATED BONUS 12

entirely, but refused to raise the hourly minimum wage rate above 40 cents, contending they have no way of knowing whether production, without the bonus incentive, would enable them to pay the higher wage and still compete in the open market.

Mill owners insist that their ofiginal offer of 5 cents an hour raise, coupled with the bonus plan, would have given many of the men approximately 43 cents an hour since the majority were receiving a base wage of 34 cents an hour.

Union officials contended that a majority of the workers, prior to the strike, were receiving 34 cents. although in at least one plant wages of 30 cents an hour were being paid, they said.

Union leaders reiterated their any mill owner individually or with representatives of the owners collectively.

They said that no other negotiations have been held and none are definitely scheduled.

Union leaders are waiting for the mill owners to call upon them for a resumption of negotiations.

quotation, from "Romeo and Juliet," but White House officials interpreted it as a reference to those who want to fight and those who refuse to negotiate, but not to the great majority of employers and employes, organized or unorganized, who do not believe in vi-

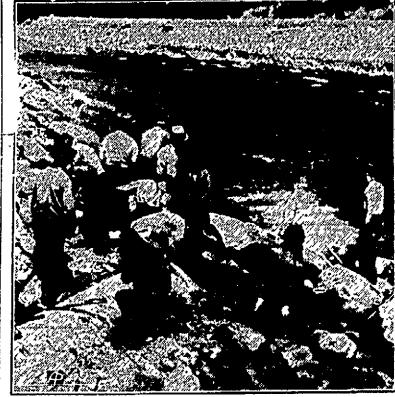

KEEPING EXE OPEN

The mediation board, meanwhile, was disbanded after failing : to bring about peace. Secretary Perkins said, however, that the federal government still is keeping an eye on the strike.

The senate civil liberties committee called four Chicago police officers Wednesday to testify about the fatal Memorial day "battle" between steel strike sympathizers and police. Police testimony will be compared with a suppressed news reel of the disorders. Ten union demonstrators lost their lives.
