

Special Feature No. 1 of

J. & C. IMPROVED OVERALLS AND COATS

We draw your attention to the Patent Safety Watch Pocket first because we believe this feature to be of the greatest interest and value to all railroad men.

Our illustration shows exactly how it is made and you will all see at a glance that it is cleverly and neatly constructed. Your watch simply CANNOT tumble out, but you can withdraw it instantly and without the least trouble.

A place to exactly hold your pencil is also provided in this pocket.

The J. & C. Improved Overalls cost a little more than the ordinary kind but they are the cheapest in

the end as they are made of the best blue denim that money will buy—Gold Medal Quality, Amoskeag; are cut and tailored as well as any ready-made garments and are made in a factory that devotes its entire facilities to the making of high-grade garments for railroad men ONLY.

Don't you think Overalls of this kind are worth more money to you than those turned out by a factory that divides its attention and forces among all grades and kinds?

Read our "Suit Free" offer in the last issue of the JOURNAL.
