

J. & C. Improved Overalls and Coats

The illustration shown here gives you an idea of the difference in the cut of **J. & C. Improved Jackets** and the ordinary kind. There is the same difference that there is between a high priced tailor-made coat and a cheap ready-made affair.

In the past six months we have tried to show you on paper what a superior line of garments the **J. & C. Improved Line** really is, but to fully appreciate this fact you must see the clothes themselves, compare them with others and *Wear them yourself.*

Just go to your dealer *today* and tell him you want to try a suit of the **J. & C. Improved** garments. If he hasn't them in stock don't let him sell you something else, because there isn't anything else as good, but insist on his getting them for you. In nine cases out of ten he will do this. If yours happens to be the tenth case, write direct to us and we will supply you.

It may be you will care to take advantage of our "*free suit*" offer, in which case it will cost you absolutely nothing to try the best Overalls ever made for railroad men. Ask about it.

The reason we know they are the best is because we have attended conventions for years and have asked railroad men to make suggestions and recommendations as to improvements and every one of these

that has proven practical is embodied in the **J. & C. Improved Line.**

Reports from all over are:—"Universally satisfactory." Won't you join the great army of satisfied Overall wears today?
